

# LINAC – VERSA HD with HDRS

- First Versa HD with HDRS in Gujarat
- First iView Dose installation in the entire south Asia
- Intra-fraction CBCT imaging is the 1st of its kind in Gujarat
- Critical Structure Avoidance (CSA) is the unique feature in Elekta exclusive especially for SRS/SBRT
- Advanced MLC delivery with lowest leakage - 0.5% (Competitive leakage is 3%)
- Delivers radiotherapy in 4-5 fold increase in dose rate, thereby reduces treatment time
- Reduces dose to nearby critical structures.
- Delivers radiation therapy with better sparing of normal tissues
- Capable of achieving high positional accuracy

## HDRS - Unique approach to Stereotactic Radiosurgery

- Dynamic jaws move from segment to segment
- Hi-resolution 1 mm increments
- Only Monaco controls Agility to produce 1 mm x 1 mm voxels for the smallest aperture (competitor 120: 2.5 mm x 1 mm)
- Mimics effects of dynamic 1 mm leaves for small fields
